Subject: Potentially Privileged Documents

Please provide immediately copies of the documents that were referred to today as being the "left behind" documents. We also require a description of the circumstance through which these documents were obtained and a list of the persons who have reviewed the documents as you are aware if these are determined to be privileged in whole or in part and law firms have gone ahead and reviewed the documents there are potentially consequences arising from that and that is, in part, the basis for the request. It should also be repeated that the fact that Mr. meadows had previously sought legal advice on this point with respect to these documents and that you did not advise us in advance of the the issue and the attempted use of the documents today at the interview is exceptionally troubling. We expect to receive the set of documents today and answers to the questions posed above at your earliest opportunity but at the outside no later than Monday.
