AFFIDAVIT OF SHANNON OSTAPOVICH

Sworn November 29, 2023

I, Shannon Ostapovich, of the City of Calgary, in the Province Alberta, SWEAR AND SAY THAT:

1. I am the President of Wolverine Energy & Infrastructure Inc. ("**Wolverine Energy**"), which is the parent corporation to 8 wholly owned subsidiaries including: Western Canadian Mulching Ltd.; Wolverine Construction Inc.; Liberty Energy Services Ltd.; HD Energy Rentals Ltd.; In-Line Production Testing Ltd.; Wolverine Equipment Inc.; BHW Employment Services Inc.; and Flo-back Equipment Inc.; (collectively, with Wolverine Energy, the "**Wolverine Group**" or the "**Applicants**") and as such I have personal knowledge of the matters deposed to in this Affidavit, except where stated to be based on information and belief, in which case I verily believe same to be true.
2. Unless otherwise indicated, monetary references in this affidavit are references to Canadian dollars.

I. RELIEF SOUGHT

3. This affidavit is sworn in support of an application by the Applicants pursuant to the *Companies' Creditors Arrangement Act*, R.S.C., 1985 c. C-36, as amended (the "**CCAA**") for an Order (the "**Initial Order**") granting the following relief:
 - (a) declaring that the Applicants are companies to which the CCAA applies;
 - (b) staying all proceedings and remedies taken or that might be taken in respect of the Applicants or any of their property, except as otherwise set forth in the Initial Order or otherwise permitted by law;
 - (c) authorizing the Applicants to carry on business in a manner consistent with the preservation of their business and property;
 - (d) authorizing the Applicants to pay the reasonable expenses incurred by the Applicants in carrying out their business in the ordinary course, including certain expenses incurred prior to the date of the Initial Order;

- (e) authorizing the Applicants to pay the reasonable fees and disbursements of the Monitor (as defined below) and its counsel and the Applicants' professional advisors and legal advisors;
- (f) appointing Ernst & Young Inc. as the monitor ("**Monitor**") of the Applicants in these proceedings;
- (g) providing for a comeback hearing in respect of the relief granted under the Initial Order within 10 days; and
- (h) such further and other relief as this Honourable Court may deem just.

II. OVERVIEW OF THE APPLICANTS

4. Wolverine Energy is a corporation existing under the laws of Alberta, Canada. It was incorporated under the *Alberta Business Corporations Act* on December 28, 2017. Wolverine Energy's registered office is located at 100 – 17420 Stony Plain Road NW, Edmonton, Alberta T5S 1K6 and its head office is located at #450, 1010 – 8th Avenue SW, Calgary, Alberta T2P 1J2. This office serves as the headquarters for its operations and provides general administrative, management, accounting and human resources functions for the Wolverine Group.

5. Wolverine Energy is a public company with its common shares listed on the TSX Venture Exchange ("**TSXV**"). Wolverine Energy's share price currently trades at \$0.04 per share. The price of Wolverine Energy's shares over the past 5 years has ranged from \$1.11/share and \$0.04/share.

6. Wolverine Energy is the parent corporation of the other Applicants in these proceedings. Below is a copy of an organizational structure chart that sets structure of the Wolverine Group:

7. Western Canadian Mulching Ltd. is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and was in the business of environmental clearing. While ceasing operations in May, 2023, it nonetheless has outstanding accounts payable and is involved in litigation related to its acquisition. This entity is currently struck due to failure to file annual returns. As part of this process, the Applicants will be taking steps to revive this company and an update will be provided at the come-back hearing.

8. Wolverine Construction Inc. is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and is in the business of environmental cleaning and construction services.

9. Liberty Energy Services Ltd., is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and is in the business of water management, oilfield services and rentals.

10. HD Energy Rentals Ltd. is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and is in the business of oilfield rentals and services.

11. In-Line Production Testing Ltd., is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and was in the business of production testing. It ceased operations as of 2021, but has outstanding accounts payable.

12. Wolverine Equipment Inc. is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and is in the business of asset management.

13. BHW Employment Services Inc. is a corporation existing under the laws of Alberta, Canada. It is wholly owned subsidiary of Wolverine Energy and is in the business of labour and employee management.

14. Flo-Back Equipment Inc. ("**Flo-Back**") is a wholly owned subsidiary of Wolverine Equipment Inc. and is incorporated pursuant to the laws of Delaware, United States of America and is in the business of production testing and testing rentals. Flo-Back's management and executives are located in Calgary. Flo-Back is financed from Canada and Flo-Back's accounting integrated with the head office. Flo-Back also has intercompany debts owing within the Wolverine Group. Additionally, Flo-Back will require access to debtor-in-possession financing, if acquired, in order to operate.

15. Attached hereto and marked together as **Exhibit "1"** are true copies corporate registry searches respecting these Wolverine Energy entities.

16. The Wolverine Group is a diversified energy and infrastructure service provider in Western Canada and the United States. It is in the business of water management, energy rentals and services, environmental clearing and construction production testing, production rentals in Canada, as well as production testing and rentals in the USA.

17. As of the last pay-period, the Wolverine Group has 172 staff, including 149 employees and 23 contractors and subcontractors (including 3 directors).

18. The Wolverine Group's revenue is primarily generated through oil and gas services.

19. The Wolverine Group's business, is cyclical in nature. The Wolverine Group is exiting its slow season with operations beginning to pick up and anticipated to peak in January/February 2024. Normally, the Wolverine Group can weather the slow seasons through

management of its capital structure, monitoring and reviewing actual and forecasted cash flows, and maintaining credit facilities to ensure there are available cash resources to meet its liquidity needs. However, knock on effects of pre-covid expansion, rising interest rates, ongoing legal disputes, costs related to an acquisition of a non-viable business based on alleged misrepresentations, work disruption due to natural disasters, and a limited market for currently held third party securities, and slowing economic conditions – in combination with the Wolverine Group's slow season – has resulted in the Wolverine Group being unable to meet their obligations as they fall due.

III. ASSETS AND LIABILITIES

20. A copy of Wolverine Energy's annual consolidated audited financial statements for the year ending March 31, 2023 are attached as **Exhibit "2"** to this Affidavit.

A. ASSETS

21. As at March 31, 2023, the date of Wolverine Energy's most recent annual audited financial statements, the Wolverine Group had total assets with a book value of approximately \$133,527,529.00. This amount included accounts receivable in the amount of \$17,108,650.00, property and equipment of \$58,667,174.00 and other long-term assets of \$54,353,654.00 (the "**Assets**").

22. The Wolverine Group's Assets have many attractive features, including:

- (a) ongoing operations and revenue generation;
- (b) experienced personnel to operate the different divisions;
- (c) a broad base of business divisions, across multiple operational areas, and jurisdictions; and
- (d) a diverse mix of asset classes including heavy vehicles, light vehicle, heavy and light equipment and securities (public and private).

The nature of these Assets will enable multiple approaches for deleveraging to be pursued contemporaneously if CCAA protection is granted by this Court.

B. LIABILITIES

23. As at March 31, 2023, the date of Wolverine Energy's most recent annual audited financial statements, the Wolverine Group had total liabilities of approximately \$117,343,161.00 (the "**Liabilities**").

24. As a result of various guarantees and obligations arising under existing security agreements, the Applicants have overlapping and interconnected obligations owing to Fiera, CWB, and AIMCO (defined below). Western Canadian Mulching Ltd., specifically, has further obligations respecting certain outstanding promissory notes and general security agreements. These obligations are limited to this entity, relate to a minor secured creditor, are currently subject to litigation, and are subordinate CWB's security interests.

Creditors

25. Wolverine Energy's three major creditors are Fiera Private Debt Fund V LP and Fiera Private Debut Fund VI LP (together "**Fiera**"), Canadian Western Bank ("**CWB**"), and the Alberta Investment Management Corporation ("**AIMCO**"). Additionally, the vendors of the business of Western Canadian Mulching Ltd. ("**WCM Vendors**") are collectively a minor secured creditor of Western Canadian Mulching Ltd.

The Fiera Loan

26. Pursuant to a Loan Agreement between Wolverine Energy and Fiera dated June 22, 2016, May 15, 2017, January 19, 2018, and February 14, 2019, (collectively the "**Fiera Loan Agreement**") Fiera advanced the following facilities to Wolverine Energy:

- (a) Non-revolving term loan in the original principal amount of \$19,000,000;
- (b) Non-revolving term loan in the original principal amount of \$4,000,000;
- (c) Non-revolving term loan in the original principal amount of \$7,600,000;

- (d) Non-revolving term loan in the original principal amount of \$23,000,000; and
- (e) Non-revolving term loan in the original principal amount of \$36,000,000.

27. Four of Wolverine Energy's subsidiaries entered into an unlimited guarantee dated September 17, 2018, pursuant to which the subsidiaries guaranteed the Fiera Loan Agreement. The subsidiaries include:

- (a) Wolverine Equipment Inc.;
- (b) Wolverine Construction Inc.;
- (c) HD Energy Rentals Ltd.; and
- (d) Liberty Energy Services Ltd.

28. Flo-Back is not an unlimited guarantor but is a wholly owned subsidiary of Wolverine Equipment Inc. Cash from Flo-Back will be required during these CCAA proceedings to assist the Wolverine Group with ongoing operating costs and debt obligations.

29. As at November 24, 2023, the principal amount outstanding under the Fiera Loan Agreement was \$54,674,093.46.

The CWB Loan

30. Pursuant to a Loan Agreement between Wolverine Energy and CWB dated September 20, 2018, November 27, 2018, February 28, 2019, April 30, 2019, June 20, 2019, October 28, 2019, August 4, 2020, and April 26, 2021 (collectively, the "**CWB Loan Agreement**"), CWB advanced the following facilities to Wolverine Energy:

- (a) Fully repaid facilities consisting of a Demand Operating Overdraft in the original principal amount of \$33,000,000, revolving term operating line of credit in the original principal amount of \$2,500,000, and Masterline facility in the original principal amount of \$24,000,000;
- (b) Demand Operating Overdraft in the original principal amount of \$15,000,000.00;

- (c) Export Development Canada (“**EDC**”) BCAP Loan Guarantee Program demand non-revolving loan with CWB in the original principal amount of \$6,250,000;
- (d) Demand Non-Revolving Loan of \$157,377.54; and
- (e) Demand Non-Revolving Loan of \$216,789.00.

31. Wolverine Energy also entered into a general security agreement dated October 3, 2018, as security for the CWB Loan Agreement.

32. The Guarantors of the CWB Loan Agreement include:

- (a) Wolverine Equipment Inc.;
- (b) Wolverine Construction Inc.;
- (c) HD Energy Rentals Ltd.;
- (d) BHW Employment Services Inc.;
- (e) Flo-Back Equipment Inc.;
- (f) Liberty Energy Services Ltd.; and
- (g) Wester Canadian Mulching Ltd.;

33. As at November 24, 2023, the principal amount outstanding under the CWB Loan Agreement was \$16,625,871.18.

The AIMCO Loan

34. Pursuant to a note purchase agreement between Wolverine Energy and AIMCO dated February 12, 2021, (the "**AIMCO Loan Agreement**"), AIMCO advanced a Promissory Note in the original principal amount of \$10,000,000.

35. As at November 24, 2023, the principal amount outstanding under the AIMCO Loan Agreement was \$10,000,000 and outstanding interest was \$4,018,884.77.

The WCM Promissory Notes

36. Pursuant to the purchase of Western Canadian Mulching Ltd. by way of a share purchase agreement dated October 31, 2021, certain promissory notes were issued to the vendors (the "**Mulching Vendors**") of Western Canadian Mulching Ltd., which were secured by general security agreements (the "**Promissory Notes**").

37. The Mulching Vendors entered into postponement and subordination of security interest agreement with CWB dated July 27, 2022, subordinating, postponing, and deferring all rights, claims and security interests that they had or may have in the collateral of Western Canadian Mulching, to the rights claims and security interests of CWB in the same.

38. The outstanding balance of these notes as at November 24, 2023 is approximately \$3,500,000.00. There is current unresolved litigation ongoing related to the acquisition of the entity and conduct of the vendor post acquisition.

Other Liabilities

39. In addition to the foregoing, the Wolverine Group also has ongoing liabilities related to accounts payable and accrued liabilities in the approximate amount of \$8,178,877.58;

40. In addition, Wolverine Group has 30 ongoing law suits in which it is either plaintiff, defendant, third-party defendant, or plaintiff by counter-claim. The details of these proceedings and the extent to whether or not they are material will be expanded on at the come-back hearing, if granted.

41. I am advised by Keely Cameron at Bennett Jones LLP, that as of November 27, 2023, there are multiple registrations under the Alberta *Personal Property Security Act*, RSA 2000, c P-7. Attached as **Exhibit "3"** are Alberta Personal Property Registration Searches for Wolverine Group.

C. Debt Reduction and Strategic Efforts to Date

Sales

42. The Wolverine Group has marketed equipment and assets via multiple avenues; however, these efforts have been challenged by competing lender priorities and approaches. Certain assets, equipment and corporate divisions have been earmarked for divestiture with a goal of maximizing value in consultation with in-house and external experts. The Wolverine Group has sold some surplus equipment via auction, consignment, and is in the process of negotiating potential private sales of individual equipment as well as potential bulk deals that would include operations and complete divisions through existing channels. The Wolverine Group has received unsolicited outreach from interested parties and the Applicants continue to pursue opportunities for further realization on their assets.

Forbearance

43. Since September, 2023, Wolverine Energy has been working with each of Fiera and CWB to reach respective forbearance agreements. However, to date CWB has insisted on certain repayment terms that Wolverine Energy cannot sustainably comply with, both with respect to the proposed CWB forbearance alone, but particularly in parallel with the obligations owing to Fiera.

44. As of November 28, 2023, and given Wolverine Energy's inability to reasonably and sustainably agree with the terms put forward by CWB, Wolverine Energy is unable to enter into forbearance agreements with either Fiera or CWB.

IV. CCAA PROCEEDINGS

45. The Wolverine Group requires the stability of the CCAA proceedings to carry out its plan to sell assets and advance a plan that will enable it to right size its operations.

The Wolverine Group is Insolvent for the Purposes of the CCAA

46. The Wolverine Group is facing liquidity challenges and based on its financial position, it is unable to service its ongoing debt obligations as they become due and continue to satisfy its working capital requirements. The Wolverine Group has still not recovered from the impact of the Covid-19 pandemic on its production testing division business in the USA and is only currently utilizing 25% of the equipment in that division. The Wolverine Group is

overleveraged, and its current operations are unable to support the monthly long term debt payments of \$1.1 million. The Wolverine Group is coming out of its slowest season where accounts receivable has dropped from \$17 million at March 31, 2023 to \$7 million at September 30, 2023 and entering its busy season with rising payroll costs and expenses. As at September 30, 2023 the Wolverine Group had a working capital deficiency of \$32,223,565.

47. The Wolverine Group believes that there is no reasonable expectation that its financial condition will improve absent these restructuring proceedings. The Wolverine Group is therefore insolvent and requires CCAA protection at this time.

48. The Wolverine Group has thoroughly considered the circumstances and potential alternatives available and has determined that it is in the best interests of the Wolverine Group and its stakeholders for the Wolverine Group to file for protection under the CCAA at this time. With the benefit of protection under the CCAA, the Wolverine Group will continue to operate its business, in particular through its busy season, and advance its restructuring efforts to maximize value for its stakeholders.

V. RELIEF SOUGHT

A. Stay of Proceedings Under the CCAA

49. The Applicants require a stay of proceedings to maintain the status quo and protect and preserve the value of their business for their benefit and the benefit of their creditors and stakeholders while they restructure their affairs and pursue a value maximizing sales process.

B. Appointment of Monitor

50. The Wolverine Group seeks the appointment of Ernst & Young Inc. as the Monitor in the CCAA Proceedings. Ernst & Young Inc. is qualified and competent to act as Monitor under the CCAA and has consented to act as the Monitor of the Wolverine Group in the within proceedings, subject to Court approval. A copy of the Consent to Act as Monitor provided by Ernst & Young Inc. is attached as hereto as **Exhibit "4"**.

C. Cash Flow Forecast

51. As set out in the Cash Flow Forecast attached hereto as **Exhibit "5"** the Wolverine Group has sufficient capital to meet its obligations during the initial 10-day stay period. However, the Applicants will require additional funding in the near term. Wolverine Group's principal use of cash during these proceedings will consist of the operating costs for the ongoing operation of its business, including, among others, employee compensation, trade payments, transportation costs, general administration expenses and other ordinary course of business obligations. In addition to these expenditures, the Wolverine Group will also incur administrative expenses in connection with these CCAA proceedings and capital expenditures associated with equipment repair.

52. The Wolverine Group is currently in discussions with two providers for the provision of interim financing and anticipates that it will make an application for interim financing at the come-back hearing.

D. Securities Reporting

53. Wolverine Energy is a publicly traded company and as a result is subject to various reporting requirements.

54. Wolverine Energy has notified its regulator of this application and is taking steps to ensure trading of shares is halted following the hearing of this application. As a result, Wolverine Energy seeks relief from its filing and reporting obligations, as these reporting obligations represent additional work for the company and expenses which in the context of CCAA proceeding could be better allocated to restructuring efforts. Moreover, given the ongoing public disclosure requirements associated with the CCAA process, the oversight of the Monitor, and the Applicants reporting of relevant information will be ongoing. Therefore, there is no clear prejudice in granting such relief.

E. Payments During the CCAA Proceedings

55. The Wolverine Group is seeking authorization pursuant to the proposed Initial Order to pay all reasonable expenses incurred by the Wolverine Group in carrying on its business in the

ordinary course after the date of the Initial Order, and to pay certain expenses, whether incurred prior to, on or after the date of the Initial Order, in respect of:

- (a) outstanding and future wages, salaries, compensation, employee benefits, director fees and expenses, vacation pay and expenses (including, without limitation, payroll and benefits processing and servicing expenses) payable on or after the date of the Initial Order, in each case incurred in the ordinary course of business and consistent with existing compensation policies and arrangements; and
- (b) the fees and disbursements of any consultants, agents, experts, accountants, counsel and financial advisors and such other persons retained or employed by the Wolverine Group, at their standard rates and charges.

56. The Wolverine Group requires the ability to make these payments in order to maintain stability for the continued operation of the Wolverine Group's business during the CCAA proceedings and to allow the Wolverine Group to advance its restructuring efforts for the benefit of its stakeholders.

F. Administration Charge

57. It is contemplated that the proposed Monitor, counsel for the proposed Monitor and counsel for the Applicants would be granted a first priority Court-ordered charge on the assets, property and undertaking of the Applicants, in priority to all claims, up to the maximum amount of \$100,000 in respect of their fees and disbursements, incurred at standard rates and charges ("**Administration Charge**").

58. I believe that the Administration Charge is reasonable and necessary to ensure these professionals' continued assistance.

G. Directors' Charge

59. The directors and officers of the Wolverine Group ("**Directors and Officers**") have been actively involved in Wolverine Group's efforts to address its challenging circumstances, including through overseeing Wolverine Groups liquidity management efforts, Wolverine

Group's review and exploration of strategic options and alternatives in connection with its liquidity and financial challenges, communications and negotiations with key stakeholders.

60. It is contemplated that the Directors and Officers would be granted an initial Court-ordered charge on the assets, property and undertakings of the Applicants (the "**Directors' Charge**") up to the maximum amount of \$1,000,000.00. The Applicants believe the Directors' Charge is fair and reasonable in the circumstances as it is calculated for specific liabilities that could occur within the next 10 days while the initial stay of proceedings is in place. This includes approximately \$855,000.00 in employee payroll for 177 Wolverine Group employees and certain tax obligations including GST, PST, and US Sales and User taxes totalling approximately \$142,000.00. The Directors and Officers are concerned that if any issues arise with the Wolverine Group access to its cash accounts during the stay period – resulting in its inability to meet payroll when due – that they would be directly liable for these amounts under relevant legislation.

61. A successful restructuring of the Applicants will only be possible with the continued participation of the Applicants' Directors and Officers. These individuals have specialized expertise and relationships with the Applicants' stakeholders. In addition, the Directors and Officers have gained significant knowledge that cannot be easily replicated or replaced.

62. I understand that the proposed Directors' Charge would apply only to the extent that the Directors and Officers do not have coverage under the D&O Insurance Policies or there is insufficient coverage.

63. The Wolverine Group has a existing D&O Insurance Policies in place to protect their directors.

VI. CONCLUSION

64. I swear this my Affidavit in support of an Application for an Initial Order under the CCAA and for no other or improper purpose.

SWORN BEFORE ME at Calgary, Alberta,
this 29 day of November 2023.

Commissioner for Oaths in and for the

Independent Auditor's Report

To the Shareholders and Board of Directors of Wolverine Energy and Infrastructure Inc.

Opinion

We have audited the consolidated financial statements of Wolverine Energy and Infrastructure Inc. (the "Company"), which comprise the consolidated statements of financial position as at March 31, 2023 and 2022, and the consolidated statements of loss and comprehensive loss, equity and cash flow for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statement for the year ended December 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters

Revenue Recognition — Refer to Note 3 & 6 to the financial statements

Key Audit Matter Description

The Company generates revenue from the provision of services to its customers in the United States and Canada. Revenues are recognized once performance obligations are considered satisfied as services are rendered.

Revenue is a key audit matter due to the significant audit effort required in performing audit procedures related to the Company's revenue recognition.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to the recognition of revenue included the following, among others:

- Evaluating whether revenue was recognized in accordance with IFRS 15, Revenue from contracts with customers;
- Evaluated the recognition of revenue, on a sample basis, by obtaining and inspecting source documents including invoices, customer signed purchase orders, contracts, field tickets and cash receipts, where applicable.

Impairment of Property Plant & Equipment (PP&E) — Refer to Note 7 to the financial statements

Key Audit Matter Description

The Company assesses PP&E for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. When an impairment indicator has been identified for a Cash Generating Unit (“CGU”), the Company estimates the recoverable amount for the CGU and an impairment loss is recognized if the carrying value exceeds the recoverable amount. The recoverable amount is based on the higher of value in use and fair value less costs to sell. An impairment indicator was identified for both the Canada and United States CGUs and the Company determined the recoverable amounts using fair value less costs to sell which included engaging an independent appraiser. The recoverable amounts exceeded their carrying values as of the measurement date and no impairment of the Canada and United States CGUs were recognized.

While there are several inputs that are required to determine the recoverable amounts for the Canada and United States CGUs, the assumptions with the highest degree of subjectivity are the determination of the fair value of PP&E. Given that the range of asset conditions and current market prices are subject to a high degree of estimation uncertainty this required an increased extent of audit effort. How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to impairment of PP&E included the following, among others:

- Evaluated the Company’s independent appraisers by:
 - Examining their appraisal reports and assessing their scope of work and findings;
 - Assessing the competence, capability and objectivity by evaluating their relevant professional qualifications and experience;
- Evaluated the reasonableness of the appraised values of PP&E, on a sample basis, by using observable market data.

Other Information

Management is responsible for the other information. The other information comprises Management’s Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management’s Discussion and Analysis prior to the date of this auditor’s report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this

other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Christopher Gill.

1. Description of the Business

Wolverine Energy and Infrastructure Inc. (“Wolverine” or the “Company”) is incorporated under the Business Corporations Act of Alberta. The Company’s common shares are traded on the TSX Venture Exchange under the symbol “WEI”. The head office is located at 450-1010 8th Ave, Calgary AB T2P 1J2.

The Company is a full service, diversified energy and infrastructure service provider in Western Canada and the United States. The Company services both conventional and renewable energy sectors providing specialized equipment rental and infrastructure services including production testing and sand management, oilfield and energy rentals, heavy equipment rentals, trailer rentals, civil/infrastructure construction, and environmental clearing to its clients throughout Western Canada and the United States.

The Company’s revenue and profits are impacted by seasonality. Activity peaks in the third and fourth fiscal quarters.

2. Basis of Presentation

These consolidated financial statements (the “financial statements”) have been prepared by management using accounting policies consistent with International Financial Reporting Standards (IFRS). The accounting policies set out below have been applied consistently to all periods presented.

These financial statements were approved by the Company’s Board of Directors on July 21, 2022.

These financial statements are recorded and presented in Canadian dollars, the Company’s functional currency, and have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. All values are rounded to the nearest dollar, except where otherwise indicated.

The financial statements of the Company comprise the financial statements of the Company and the entities it controls. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with subsidiaries and has the ability to affect those returns through its power over the subsidiaries’ relevant activities. Subsidiaries are consolidated from the date control is obtained and deconsolidated from the date control ceases. All intercompany transactions, balances, income, and expenses are eliminated on consolidation. The Company has applied uniform accounting policies throughout all consolidated entities and the reporting dates of the subsidiaries are all consistent with that of the Company.

3. Summary of Significant Accounting Policies, Estimates and Judgements

Significant Accounting Policies

The significant accounting policies adopted in the preparation of these financial statements have been consistently applied to all periods presented, unless otherwise stated.

Business Combinations

Business combinations, except for transactions between entities under common control, are accounted for using the acquisition method. Under this method, consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Company, liabilities assumed by the Company and equity interests issued in exchange for control of the acquired company. Acquisition-related costs and gain on bargain purchase are recognized in profit or loss as incurred. A gain on bargain purchase arises when the sum of the fair value of identifiable net assets exceeds the fair value of the consideration paid.

Functional and Presentation Currency

The presentation currency of the Company and its subsidiaries is the Canadian dollar. The functional currency of the Company and its U.S. subsidiaries are the Canadian and U.S. dollar, respectively. Accordingly, the assets and liabilities related to foreign operations are translated to the Canadian dollar at each reporting date. Income and expense transactions relating to foreign operations are translated at the exchange rate in effect at the average rate for the period. Differences resulting from translation of foreign operations are recorded in other comprehensive income (loss) as the cumulative translation adjustment for the period.

Financial Instruments – Classification and Measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of a financial instrument or non-financial derivative contract.

All financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Financial assets are subsequently measured at amortized cost where a financial asset is held within a business model with the objective to collect contractual cash flows and the contractual cash flows arise on specified dates and are payments that consist solely of principal and interest on the principal amount outstanding. All other financial assets and equity investments are subsequently measured at fair value through profit or loss or other comprehensive income (FVTPL or FVTOCI).

Financial liabilities are classified as fair value through profit and loss when the financial liability is held for trading. Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on re-measurement recognized in profit or loss. All other financial liabilities are subsequently measured at amortized cost.

The Company recognizes and measures existing financial instruments as follows:

Trade and other receivables	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Short-term borrowings	Amortized cost
Long-term debt	Amortized cost
Investment in Fleet Energy	FVTPL
Investment in Kara Energy	FVTPL
Investment in Green Impact Partners	FVTPL
Investment in joint venture	FVTPL
Investment in co-ops	FVTPL

Fair Value Measurement

Fair value is the price that would be received when selling an asset or paid to transfer a liability in an orderly transaction between market participants in its principal or most advantageous market at the measurement date. All assets and liabilities for which value is measured or disclosed in the consolidated financial statements are further categorized using a three-level hierarchy that reflects the significance of the lowest level of input used to determine fair value:

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs other than quoted prices included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 inputs are based mainly on a market approach using observable inputs, such as price, time value and volatility factors.
- Level 3 – Valuations in this level are those that utilize inputs for the asset or liability that are not based on observable market data.

At each reporting date, the Company determines whether transfers have occurred between hierarchy levels by reassessing the level of classification for each financial asset and financial liability measured or disclosed at fair value in the consolidated financial statements. Assessment of the significance of a particular input used to determine the fair value measurement required management judgement and consequently may affect the placement within the hierarchy. The Company does not have any financial instruments classified in Level 3.

Financial Instruments – Impairment

Impairment of financial assets is recorded when there are expected credit losses, defined as the present value of all cash shortfalls over the expected life of the financial instrument. The impairment model requires entities to recognize expected credit losses in profit or loss for all financial assets, including those that are newly originated or acquired.

Financial Instruments – Derecognition

The Company derecognizes a financial asset when the contractual right to the cash flows from the asset expires or when it transfers the financial asset and substantially all risks and rewards associated with the asset to another party. On derecognition of a financial asset measured at amortized cost, the difference between the carrying amount and the sum of the consideration receivable is recognized in profit or loss.

The Company derecognizes financial liabilities when all obligations are discharged, cancelled, or expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, is recognized in profit or loss.

Cash and Cash Equivalents

Cash consists of cash on deposit at financial institutions and excludes the amounts owing under short-term borrowings.

Inventory

Inventory is primarily comprised of consumables, spare parts, crude oil, and natural gas liquids. Consumables and spare parts inventory are measured at the lower of cost and net realizable value. Crude oil and natural gas liquids held for marketing purposes are measured at fair value less costs to sell with changes to fair value less costs to sell recognized in net income. The fair value is determined based on the market price of crude oil and natural gas liquids on the measurement date.

Property, Plant and Equipment

Property, plant and equipment is recorded at historical cost less any accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to acquiring the asset and bringing it to the location and condition necessary for it to operate in the manner intended. The cost of replacing a component of equipment

WOLVERINE ENERGY AND INFRASTRUCTURE INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED MARCH 31, 2023 AND 2022 (EXCEPT WHERE OTHERWISE NOTED)

is recognized in the carrying amount of the asset if it is probable that future benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. When a replacement component is recognized, the carrying amount of the corresponding item being replaced is derecognized from the financial statements. Repairs and maintenance expenditures that do not extend the useful life or improve the efficiency of the asset are expensed.

Property, plant and equipment is depreciated with the following estimated useful lives and depreciation methods:

Item	Life	Depreciation Method
Land	Indefinite	None
Buildings and Facilities	5 to 25 years	Straight-Line
Equipment	2 to 10 years	Straight-Line and Declining Balance

Useful lives and depreciation methods are reviewed on an annual basis. Equipment is derecognized when it is either disposed of or when it is determined that no further economic benefit is expected from the items future use. Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized as a separate line item in the non-operating expense (income) section of the consolidated statement of earnings (loss) and comprehensive earnings (loss).

Intangible Assets

Intangible assets with finite useful lives that are acquired in a business combination and recognized separately from goodwill are initially recognized at their fair value at acquisition date, which is regarded as their cost. Subsequent to initial recognition, intangible assets are recorded at cost, less accumulated amortization, and accumulated impairment losses. Intangible assets with finite lives are amortized over the periods during which they are expected to generate benefits.

Intangibles are amortized with the following estimated useful lives and amortization methods:

Item	Life	Amortization Method
Customer Relationships	8 years	Straight-Line
Non-Compete Agreements	3 to 5 years	Straight-Line
Trade Names	3 years	Straight-Line
Software	2 years	Straight-Line

Other Long-Term Assets

Other long-term assets include equity securities in related and unrelated parties. The Company's investments are measured as fair value through profit and loss (FVTPL), with gains or losses arising from changes in fair value recognized in the non-operating expense (income) section of the consolidated statement of earnings (loss) and comprehensive earnings (loss) and accumulated in the fair value instrument. Fair value is determined through observing the period end trading price of an investment multiplied by the number of shares held at period end, where applicable. If the trading price is not readily available, the Company assesses the fair value through other observable inputs on the financial statements and financial information provided by the entity along with observable inputs for market factors such as foreign exchange and interest rates.

Investment in net profit interest (NPI) consist of an exploration and evaluation (E&E) asset representing the Company's interest in certain Moroccan licenses and exploration well costs.

E&E assets may include undeveloped land costs, licenses, and exploration well costs which are initially capitalized at cost and, if subsequently determined to have not found sufficient reserves to justify commercial production, are

charged to expense. Investment in NPI continues to be capitalized as E&E assets as long as sufficient progress is being made by the operator of the field to assess the reserves and economic viability of the asset.

Once technical feasibility and commercial viability has been established, E&E assets will be transferred to property, plant and equipment. E&E assets are not depleted. They are carried forward until technical feasibility and commercial viability of extracting a mineral resource is determined. The technical feasibility and commercial viability are considered to be determined when proved and/or probable reserves are determined to exist or they can be empirically supported with actual production data or conclusive formation tests. E&E assets are tested for impairment when they are transferred to petroleum properties and if facts and circumstances suggest that the carrying amount of E&E assets may exceed the recoverable amount. Indication of impairment include:

1. Expiry or impending expiry of lease with no expectation of renewal;
2. Lack of budget or plans for substantive expenditures on further E&E;
3. Cessation of E&E activities due to a lack of commercially viable discoveries; and
4. Carrying amounts of E&E assets are unlikely to be recovered in full from a successful development project

Impairment

All non-financial assets are reviewed at the end of each reporting period to determine whether the carrying amount may not be recoverable. The carrying amounts of the Company's non-financial assets, primarily consisting of property and equipment, net profit interest, intangible assets and goodwill are reviewed at each reporting date to determine whether there is any indication of impairment. Internal factors, such as budgets and forecasts, as well as external factors such as expected future prices, costs, and other market factors, are monitored to determine if indications of impairment exist. If indicators of impairment are identified, the asset is tested for impairment.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets and referred to as the cash generating unit (CGU). For the purpose of goodwill impairment testing, goodwill acquired in a business combination is allocated to the CGU, or the group of CGUs, that is expected to benefit from the synergies of the combination. This allocation is subject to an operating segment ceiling and reflects the lowest level at which that goodwill is monitored for internal reporting purposes.

The recoverable amount of an asset or a CGU is the higher of its fair value less costs to sell and its value in use. In determining fair value less costs to dispose, the Company uses appraised values based on observable recent market transactions of similar assets. Value in use is determined on the basis of profit or loss projections over the asset or CGUs useful life using management's forecast tools for the first five years and an estimate over the subsequent years based on long-term market trends for the asset or CGU involved. The calculation takes into account net cash flows to be generated by the asset or CGU throughout its useful life based on the growth and profitability profile of each asset or CGU.

An impairment loss is recognized when the carrying amount of any asset or its CGU exceeds its estimated recoverable amount. Impairment losses are allocated to first reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. When goodwill and another asset (or asset group) of a CGU are tested for impairment at the same time, the other asset (or asset group) is tested for impairment before goodwill. When the other asset (or asset group) is impaired, the impairment loss is recognized prior to goodwill being tested for impairment. Impairment is determined for goodwill by assessing the recoverable amount of each group of CGUs to which goodwill relates. The groups of CGUs represent the lowest level within the Company at which goodwill is monitored for internal management purposes and are not larger than an operating segment. When the recoverable amount of a group of CGUs is less than its carrying amount, an impairment loss is recognized.

Leases

IFRS 16 requires the Company to make judgments that affect the valuation of lease liabilities and the corresponding right-of-use (ROU) assets, including whether a contract falls within the scope of IFRS 16, the term of the lease, and determining the interest rate used for discounting future cash flows.

At the inception of an arrangement, the Company determines whether the arrangement is or contains a lease under IFRS 16. An agreement which results in the Company having the right to control the use of an asset over a period of time with set payments is considered a lease. The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases with a term of 12 months or less or leases of low-value assets. These lease payments are recognized as an expense over the lease term. The Company has lease agreements for items including real estate, equipment and vehicles that qualify as right-of-use assets and lease liabilities under IFRS 16.

Right-of-use assets are capitalized at the date the lease commences and are comprised of the initial lease liability less any lease incentives received. The Company generally depreciates right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. The lease term includes the non-cancellable period of the lease agreement and periods covered by any option to renew, where it is reasonably certain that the option will be exercised. Right-of-use assets are assessed for impairment when such indicators exist. Right-of-use assets are included in property, plant & equipment on the consolidated statement of financial position and disclosed in Note 7.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date. Lease payments over the estimated lease term include: fixed lease payments, less any lease incentives; variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date; the amount expected to be payable by the lessee under residual value guarantees; the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company estimates the incremental borrowing rate based on the lease term, collateral assumptions, and the economic environment in which the lease is denominated and considering the terms of the Company's other long-term debt.

Subsequent to initial measurement, the liability is reduced for payments made and increased for interest on the lease liability (using the effective interest rate method). The liability is remeasured to reflect any reassessment or modification, or if there are changes in fixed payments. The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) when: the lease term changes or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate; the lease payments change due to a change in an index, rate, or expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate; or a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero. Lease liabilities are included in long-term debt on the consolidated statement of financial position and segregated in Note 11. Future undiscounted cash outflows for lease liabilities are disclosed in Note 19.

Share Capital

Common shares are presented in share capital within shareholders' equity. Incremental costs directly attributable to the issue of common shares and share options are recognized as a deduction from share capital, net of any tax effects.

Revenue Recognition

The Company enters into fee for service agreements and recognizes revenue when performance obligations have been fulfilled. The Company's services include equipment rentals, production testing, and water management and disposal services. Revenues are recognized when the Company becomes entitled to invoice a customer based on contractual rates and the satisfaction of performance obligations over time. A fee for service agreement with a customer defines the billing rates for each project. Performance obligations are considered satisfied as services are rendered.

Revenue is measured based on consideration specified in a contract with a customer. Contracts are generally short-term in nature and are not considered to have a significant financing component. Where the right to consideration from a customer corresponds with the value of the Company's performance to date, revenue is recognized as the Company becomes entitled to invoice the customer under the contract. Otherwise, revenues are recognized on the basis of the Company's efforts including costs incurred and/or labour hours expended.

In all cases, revenue is recognized only when collection is reasonably assured.

The Company recognizes the incremental costs of obtaining a contract as an expense when incurred if the term of the contract is one year or less. During the year, there were no costs of obtaining a contract covering a period greater than one year.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Share-Based Compensation

The Company has a restricted share unit (RSU) plan whereby RSUs may be awarded and vest in equal portions over the period(s) stipulated in the grant and may be settled with cash or by delivering shares in the Company's stock at the Company's discretion. The Company records expense over the vesting period as well as a related liability and revalues the liability and expense based on the market price of the Company's shares at each reporting period.

Income Tax

The Company uses the deferred tax method of accounting for income taxes.

Current tax assets and liabilities are claims or obligations for the current and prior periods to be recovered from (or paid to) taxation authorities that are outstanding at the end of the reporting period. Current tax is computed on the basis of tax profit which differs from accounting net profit or loss.

Deferred tax is recognized based on temporary differences between the tax basis of an asset or liability and its carrying amount on the statement of financial position. Any changes in the net amount of deferred tax assets and liabilities are included in profit or loss based on enacted or substantively enacted tax rates and laws. Deferred tax assets are recognized only when it is likely they will be realized.

Operating Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other operating segments. All operating segment results are reviewed regularly by the President and the Executive Chair, who are the Company's Chief operating decision makers (CODM's) and make decisions about resources to be allocated to the operating segment and performance assessment. Operating segment results that are reported to CODM include items directly attributable to an operating segment as well as those that can be allocated on a reasonable basis. The Company's operating segments are defined in Note 20.

Significant Estimates and Judgments

The timely preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported assets, liabilities, revenues, expenses, gains, losses, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. The estimates and underlying assumptions are reviewed by management on an ongoing basis, with any adjustments recognized in the period in which the estimate is revised.

The following are critical judgments and estimates in applying accounting policies that management has made in the process of applying IFRS and that have the most significant effect on the amounts recognized in the financial statements.

Impairment

The review and assessment of non-financial assets for impairment requires the application of judgment and the use of external and internal sources of information. Impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount. The determination of fair value and the calculation of value-in-use involve estimation uncertainty about external and internal factors, including growth rates, discount rates, future prices, and future capital expenditures.

Depreciation Methods and Useful Life

Subsequent to initial measurement, the carrying value of equipment is impacted by the determination of an appropriate depreciation method and the estimation of the useful life of equipment. Management reviews the depreciation method and salvage value for each category of equipment on an annual basis to ensure that selections are consistent with the characteristics of the underlying assets. In making this judgment, management considers historical experience with similar assets as well as new technology and market trends.

Allowance for Doubtful Accounts

The Company establishes an allowance for estimated losses for uncollectable accounts. The allowance is determined based on customer creditworthiness, current economic trends, and past experience.

4. Dispositions

Sale of Midstream Assets

In May 2021, the Company completed a transaction to sell certain water midstream, solids recycling and green energy development assets and liabilities for consideration of \$101,500,000 in note receivables and shares to the Company and \$48,500,000 of share granted directly to Wolverine shareholders. Under the terms of the transaction, the Company received a \$50,000,000 note receivable and \$51,500,000 (5,150,000 shares) in shares of Green Impact Partners Inc. (GIP), with Wolverine shareholders receiving \$48,500,000 (4,850,000) in shares of Green Impact Partners Inc. Under the terms of the plan of arrangement, various legal entities were created (Spinco) to facilitate the transaction. As part of the steps in the transaction, Wolverine contributed the net assets to be sold in the transaction to a Spinco for a \$50,000,000 note receivable from the Spinco and a 51.5% controlling interest in the shares of Spinco, with Wolverine recording a 48.5% non-controlling interest of \$12,102,417. Spinco then sold the net assets for consideration of \$51,500,000 in shares of GIP.

The table below presents a summary of the consideration received by Wolverine for its 51.5% interest in Spinco and the related carrying values of the assets, liabilities and non-controlling interest sold in the transaction:

Share proceeds	51,500,000
Prepays	567,973
Inventory	691,845
Property, plant and equipment	86,716,797
Intangibles and goodwill	6,148,008
Asset retirement obligation liability	(13,084,000)
Note payable by Spinco to Wolverine	(50,000,000)
Non-controlling interest (48.5%)	(12,102,417)
Net assets sold	18,938,206
Gain on sale of net assets	32,561,794

Sale of Heavy Equipment Rental Business

In March 2022, the Company completed a transaction to sell its heavy equipment rental business for total consideration of \$15,000,000. Under the terms of the transaction, the Company received \$12,000,000 in cash and \$3,000,000 in an accounts receivable earn-out to be realized through reduced rental rates on future heavy equipment rentals and eligible incremental gross margin generated at Wolverine by the buyer. \$2,000,000 of accounts receivable earn-out has been classified as a long-term receivable.

WOLVERINE ENERGY AND INFRASTRUCTURE INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED MARCH 31, 2023 AND 2022 (EXCEPT WHERE OTHERWISE NOTED)

The table below presents a summary of the consideration received by Wolverine:

Cash	12,000,000
Accounts receivable to be earned out	3,000,000
Total proceeds	15,000,000
Cash paid out to settle leases	(6,163,789)
Net proceeds	8,836,211
Property, plant and equipment	11,820,452
Goodwill	1,294,143
Lease liability	(5,644,736)
Deferred tax liability	(48,029)
Net assets sold	7,421,830
Gain on sale of net assets	1,414,381

5. Business Combinations

In December 2021, the Company acquired 100% of the shares of Western Canadian Mulching Ltd. (WCM) and certain assets of Seisline Resource Services Ltd. (Seisline) for total proceeds of \$10,957,413. WCM and Seisline are leading environmental clearing companies with customers across Canada.

In connection with these transactions, the Company has entered into additional equipment financing loans totaling \$4,200,000 and a sale-lease back arrangement for \$1,001,280, to finance the cash portion of the consideration paid and to support necessary working capital requirements.

The purchase price has been allocated as follows based on the provisional assessment of fair value of the assets and liabilities acquired in the transactions:

Purchase price	
Cash	4,777,368
Wolverine Class A Common Shares	739,130
Green Impact Partners Inc. Common Shares	440,915
Promissory notes payable to seller	5,000,000
Total	10,957,413
Purchase Price Allocation	
Cash	133,551
Accounts receivable	7,908,954
Prepaid expenses	54,704
Investments	5,570
Property, plant and equipment	10,367,264
Intangibles	480,495
Accounts payable and accrued liabilities	(2,603,222)
Debt	(3,967,756)
Deferred tax liability	(1,422,147)
Net assets acquired	10,957,413

WOLVERINE ENERGY AND INFRASTRUCTURE INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED MARCH 31, 2023 AND 2022 (EXCEPT WHERE OTHERWISE NOTED)

The results of WCM and Seisline are included in the Canadian operating segment as the assets and business are similar to the existing environmental clearing assets and business already owned and operated by the Company in Canada.

6. Accounts Receivable

March 31, 2023	40,000	30,625	55,093,977	3,502,572	58,667,174

As at March 31, 2023, the Company identified impairment indicators related to the deficiency of the Company's market capitalization compared to its net assets. As such, management performed an impairment analysis on the Canadian and United States CGUs. As at March 31, 2023, the recoverable amounts of the CGUs were determined from a fair value less costs to dispose (FVLCTD) based on appraisal value of the property, plant and equipment. As the appraised value exceeded the net book value, no impairment was recorded.

Consistent with property, plant and equipment, as at March 31, 2023, the Company identified impairment indicators. As such, the Company performed an impairment analysis on its CGUs to which the intangible assets relate, and the Company determined there was impairment of \$88,933.

9. Other Long-Term Assets

	31-Mar-2023	31-Mar-2022
Net profit interest in Sound Energy ¹	5,350,000	5,350,000
Investment in Fleet Energy ²	1,642,857	1,642,857
Investment in Kara Energy ²	-	500,000
Other long-term receivables ³	5,405,553	6,564,595
Investment in Green Impact Partners ⁴	42,292,375	43,556,844
Investment in joint venture ⁵	62,869	512,094
	54,753,654	58,126,390

¹The Company has a 10% net profit interest in any future cash flows from the Kechoula structure within the Sidi Mokhtar exploration license, and a 5% net profit interest in any future cash flows from structures within the Sidi Mokhtar license other than the Kechoula structure. There were no indicators of impairment for the period ended March 31, 2023. The asset is measured in accordance with IFRS 6, where commercial activities are at a pre-production stage.

²There have been no changes to the fair value of the fleet energy investment since year end. Fair value was determined using Level 2 inputs. For the 12 months ended March 31, 2023, the investment in Kara Energy was determined to be impaired and the amount was written off.

WOLVERINE ENERGY AND INFRASTRUCTURE INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED MARCH 31, 2023 AND 2022 (EXCEPT WHERE OTHERWISE NOTED)

³The Company classifies certain receivables as long-term based on the expected timing of settlement. The Company transferred certain balances to long-term based on their expected settlement date.

⁴The Company holds shares in Green Impact Partners Inc. (GIP) amounting to approximately 25% of the total GIP shares outstanding from the sale of the Company's midstream assets. GIP shares are listed on the TSX-V. For the 12 months ended March 31, 2023, the change in the investment was a loss of \$1,264,470, made up of a 25% equity loss pickup of \$1,084,000, and markdown of investment of \$180,470 based on the March 31, 2023 share price of GIP.

⁵The Company has an investment in a joint venture for water processing. There are currently no operations at the joint venture. The company determined this investment is impaired and wrote down the asset by \$449,225.

10. Accounts Payable

	31-Mar-2023	31-Mar-2022
Trade payables	10,807,124	8,102,468
Other payables and accrued liabilities	6,633,352	8,157,621
	17,440,476	16,260,089

11. Short-Term Borrowings and Debt

Short-Term Borrowings

During the third quarter ended December 31, 2022, the Company increased the demand revolving facility to \$15,000,000 from \$10,000,000 of which \$12,906,958 was drawn at March 31, 2023 (March 31, 2022 – \$9,170,800). The facility bears interest at prime plus 1.25% with available borrowing capacity based on a percentage of eligible receivables balances at each reporting period.

Debt

	31-Mar-2023	31-Mar-2022
Term debt ¹	58,560,431	63,092,716
IFRS 16 lease liabilities ²	3,968,391	5,394,030
Note payable ³	10,000,000	10,000,000
Term demand debt ⁴	5,034,722	6,250,000
Government loans ⁵	757,932	844,950
Term demand debt ⁶	11,763	374,167
Equipment loans ⁷	-	4,174,037
Vendor take back agreement ⁸	265,000	282,500
Promissory notes ⁹	3,500,000	5,000,000
Vendor take back loan ¹⁰	-	3,967,756
	82,098,239	99,380,156
Deferred financing costs	(492,758)	(762,723)
	81,605,481	98,617,433
Current portion	(17,974,937)	(29,794,008)
Long term portion	63,630,544	68,823,425

¹Term debt bearing interest at 6.85%, repayable in blended fixed monthly payments of \$963,283 and maturing between July 2026 with a balloon payment of \$4,741,649 and September 2028 with a balloon payment of \$8,061,164. The debt is secured by a general security agreement.

²Lease liabilities are recorded at the present value of future minimum lease payments, with lease payments being apportioned between principal and interest, where interest is determined to be the Company's incremental borrowing rate of 6.85% or, if known, the implicit interest rate charged by the lessor. Blended fixed monthly payments average approximately \$173,490 with lease maturity dates between May 2023 and February 2027.

³Unsecured promissory note for \$10,000,000, bearing interest at 12.6% per annum, paid quarterly, for a term of 5 years, maturing in February 2026, with the option to repay any outstanding principal and accrued interest beginning on or after the 3-year anniversary of the issue date of February 2021.

⁴Term demand debt bearing interest at prime plus 1.50%, repayable in interest only payments until August 2022, with fixed principal repayments of \$173,611 beginning in September 2022. The loan is renewable on an annual basis for up to 5 years ending August 2025 based on an annual credit review being performed. The loan is secured by a general security agreement. The Company does not expect any adverse impacts or changes from the annual credit review.

⁵The Company has acquired interest free and forgivable loans from the Canadian and US governments based on meeting the eligibility criteria of Covid-19 loan programs. These loans are eligible to be forgiven up to 100% or repaid before any interest begins to accrue. Certain loans are amortized to the other income (expense) line item on the statement of earnings (loss) and comprehensive earnings (loss) as eligible expenses are incurred – see note 16 for further details. The Company expects these loans to be forgiven or repaid, as applicable. All loans have been classified as current portion of long-term debt on the statement of financial position.

⁶Term demand debt under a \$2,500,000 revolving facility bearing interest at prime plus 1.75%, repayable in blended monthly instalments of approximately \$34,523, maturing between January 2022 and April 2023. The debt is secured by a general security agreement.

⁷Equipment loans bearing interest between 9.35% and 12.00%, repaid in blended monthly instalments of \$120,256 and matured between September 2022 and December 2022 with a balloon payment of \$3,533,493 in December 2022. The debt was secured by the specific equipment it was used to purchase.

⁸Vendor take-back loan bearing interest at 3%.

⁹Promissory notes related to the acquisition of WCM and certain Seisline assets (see note 5) bearing interest at 8%. This is included in the current portion of debt.

¹⁰Vendor take back loan bearing no interest and adjusted based on the collection of receivables associated with the acquisition of WCM in March 2022. The company collected all the receivables to pay off this loan.

Scheduled Principal Repayments

By Fiscal year:	
2024	17,974,937
2025	9,021,271
2026	18,813,213
2027	13,445,441
2028	5,427,177
Thereafter	17,416,200
	82,098,239

Debt Covenants

The Company has the following debt covenants for period ending March 31, 2023:

Debt Covenant	Threshold	Compliance
Cash flow coverage ratio ¹	Not less than 1.35	Compliance waived
Debt service coverage ratio ²	Not less than 2.0	Compliance waived
Debt to equity ratio ³	Not greater than 2.75	Compliance waived
Funded debt to EBITDA ratio ⁴	Not greater than 3.0	Compliance waived
Funded debt to EBITDA ratio ⁴	Not greater than 3.5	Compliance waived

The Company is not compliant with its covenants and has obtained waivers from the lender up to March 31, 2024. The Company is currently renegotiating them to better align with Wolverine's current business.

¹Defined as EBITDA divided by contractual repayments of principal and interest on all debt including leases classified under IFRS 16 for the trailing 12 months and where EBITDA is defined as net earnings (loss) before income tax, interest expense and depreciation and amortization as defined under IFRS and normalized for transactions and public company expenses.

²Defined as EBITDA and any other non-cash expenses acceptable to the lender less net maintenance capital expenditures and cash taxes, divided by the annual blended payments required on the loan plus and interest on short-term borrowings.

³Defined as short-term borrowings plus the current and long-term portion of debt and the balance of shareholders' equity on the statement of financial position in accordance with IFRS.

⁴Defined as short-term borrowings plus the current and long-term portion of debt divided by EBITDA where EBITDA is defined as net earnings (loss) before income tax, interest expense and depreciation and amortization as defined under IFRS and normalized for transaction and public company expenses.

12. Income Tax

The loss carry forward balance of \$4,974,839 (2022 – \$7,944,230) represents potential future tax savings to the Company. The Company considers it probable that some future taxable profits will be available against which the losses giving rise to this deferred tax asset can be applied. Accordingly, the Company has recognized a deferred tax asset or a reduction to its net deferred tax liability, as applicable to the extent the company believes in has sufficient future tax earnings.

Restricted Share Unit (RSU) Plan

The RSU Plan has been designed to provide a mechanism by which equity-based incentives may be awarded to the employees, consultants, directors, and officers of the Company, to recognize and reward their significant contributions to the long-term success of the Company and to align the employees', consultants' directors', and officers' interests more closely with the shareholders of the Company. Pursuant to the RSU Plan, the Board, through the Company's Corporate Governance and Compensation Committee, may grant RSUs as an incentive payment to eligible persons. The Board intends to use RSUs issued under the RSU Plan as part of the Company's overall executive compensation plan. Vesting terms of the RSU will be determined by the Board at time of issuance. The maximum number of Common Shares that may be reserved for issuance under the RSU Plan shall not exceed 11,034,582 (10%) of the outstanding Common Shares of the Company. During the year, there were 5,179,940 RSUs granted with a grant value of \$1,035,988 at \$0.20 per RSU and 2,259,980 RSUs granted with a grant value of \$84,000 at \$0.07 per RSU (2022 – Nil) and nil RSUs settled (2022 – \$nil). Compensation expense recovery recorded for the unsettled units during the year was \$470,566 based on the March 31, 2023, share price (2022 – compensation recovery of \$699,688).

Acquisition of Treasury Shares

Treasury shares are held by the Company for the purpose of issuing shares under the Company's RSU Plan. For the year ended March 31, 2023, the Company acquired nil common shares (2022 – 2,944,909) as treasury shares for \$nil (2022 – \$2,531,763). At March 31, 2023, the Company is holding 3,045,909 (2022 – 3,045,909) treasury shares.

14. Direct Costs

Other income	12,044	62,423
	13,676	4,288,206

¹The Company has received government subsidies from the Canadian and US government related to the Covid-19 pandemic based on meeting the eligibility criteria stipulated by the government. For the year ended March 31, 2023, Canadian wage and rent subsidies recognized were \$nil and \$1,632 (2022 – \$1,254,945 and \$424,871), and US wage, rent and other eligible expense subsidies recognized were \$nil (2022 – \$1,201,768). The US subsidies were initially recorded as a government loan liability and amortized to other income during the period as eligible expenses were incurred; no cash is expected to be required to settle this loan.

²On May 27, 2021, the Company received an in-kind dividend of shares in Green Impact Partners Inc. (GIP) from holding 2,941,909 treasury shares of Wolverine. The in-kind dividend of shares in GIP is in accordance with the plan of arrangement for the sale of certain midstream assets (see note 4) whereby shareholders of Wolverine shares were issued 0.046 shares of GIP for every one share of Wolverine.

17. Related Party Transactions

	31-Mar-2023	31-Mar-2022
Rent payments	-	-
Short-term leases	-	-
Expenses paid and rebilled to GIP ¹	-	3,521,651
Salaries, wages and benefits ²	589,553	632,052
	589,553	4,153,703

¹Relates to expenses paid and rebilled at cost by Wolverine in accordance with the Transition Services Agreement (TSA) with Green Impact Partners Inc. (GIP). All expenses recorded by Wolverine are presented net of amounts rebilled to GIP under the TSA. Wolverine and GIP are related parties by virtue of Wolverine owing approximately 25% of the common shares of GIP and through Wolverine's Executive Chairman being the Chief Executive Officer of GIP.

²Relates to key management personnel of the Company and includes salaries, wages, short-term benefits and RSU grants.

18. Capital Management

	31-Mar-2023	31-Mar-2022
Current assets	18,613,634	33,898,452
Current liabilities	(48,322,371)	(55,224,897)
Long-term debt	63,630,544	68,823,425
Shareholders' equity	16,184,368	41,436,005
	50,106,175	88,932,985

The Company's objectives when managing capital are to: (i) ensure the Company has the financial capacity to execute on its strategy to increase market share through organic growth or strategic acquisitions; (ii) maintain financial flexibility in order to meet financial commitments and maintain the confidence of shareholders, creditors, and the market; and (iii) optimize the use of capital to provide an appropriate return on investment to shareholders. Management considers the Company's current assets less current liabilities, long-term debt, and shareholders' equity as the components of capital to be managed.

The Company's overall capital management strategy remained unchanged from prior periods. The Company has established criteria for sound financial management and manages the capital structure based on current economic conditions, risk characteristics of underlying assets and planned capital and liquidity requirements. Total capitalization is maintained or adjusted by drawing on existing credit facilities, issuing new debt or equity securities, through sale of shares in investment in Green Impact Partners, and the disposal of underperforming assets when required.

19. Risk Management

Litigation

From time to time the Company is subject to claims and lawsuits arising in the ordinary course of operations. In the opinion of management, the ultimate resolution of such pending legal proceedings will not have a material adverse effect on the Company's financial position.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's cash needs are met with cash generated by operations, strategic sale of assets, financing provided by short-term borrowings and long-term debt (Note 11). At March 31, 2023, Wolverine is in breach of its financial covenants on its term debt, however has obtained waivers through March 31, 2024. There is no assurance that covenants will continue to be waived. If financial covenants are not met and the Company is unable to obtain waivers, the debt may become due on demand. This uncertainty may cast doubt with respect to the ability of the Corporation to continue as a going concern. Wolverine is in the process of negotiating covenant relief from its lenders. No agreements have been reached as of the date of the consolidated financial statements and therefore, there can be no assurance that such agreements will be reached.

The Company manages liquidity risk through management of its capital structure, monitoring and reviewing actual and forecasted cash flows, and maintaining credit facilities to ensure there are available cash resources to meet the Company's liquidity needs. The Company believes that in conjunction with the sale certain other long-term assets that it has access to sufficient capital through internally generated cash flows, strategic sale of assets and external sources (bank credit markets a, if required) to meet current spending forecasts. After examining the economic factors that could cause liquidity risk, the Company believes it will have sufficient liquidity to support its operations and meet its financial obligations for at least twelve months. The consolidated financial statements have been prepared on a going concern basis, which presumes that Wolverine will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The consolidated financial statements do not reflect adjustments and classifications of assets, liabilities, revenues and expenses which would be necessary if the Corporation were unable to continue as a going concern.

All the accounts payable and accrued liabilities are due in less than one year.

The following are undiscounted contractual maturities of financial liabilities, including estimated interest:

	Total	< 1 Year	1-3 Years	4-5 Years	After 5 Years
Short-term borrowings	12,906,958	12,906,958	-	-	-
Accounts payable and accrued liabilities	17,440,476	17,440,476	-	-	-
Debt, excluding lease liabilities	103,194,764	23,068,632	39,245,674	23,541,511	17,338,947
Lease liabilities	4,407,643	2,130,635	1,629,312	647,696	-
Total	137,949,841	55,546,701	40,874,986	24,189,207	17,338,947

Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposure through its normal operating and financing activities. The Company is exposed to interest rate risk primarily through short-term and long-term borrowings with floating interest rates. Other borrowings have fixed interest rates and would only be subject to interest rate fluctuations as refinancing is required.

Credit Risk

The Company is primarily exposed to credit risk from customers. The maximum exposure to credit risk is equal to the carrying value of the accounts receivable and note receivable. The Company's trade receivables are with customers in the infrastructure, construction, mining, oil and natural gas, agriculture, forestry, government, potash, and utilities industries and are subject to credit risk. In order to reduce credit risk, the Company reviews a new customer's credit history before extending credit and conducts regular reviews of its existing customers' credit performance. Additionally, the Company continuously reviews individual customer trade receivables taking into account payment history and aging of the trade receivables to monitor collectability. In accordance with IFRS 9, Financial Instruments, the Company reviews impairment of its trade and other receivables at each reporting period and its allowance for expected future credit losses. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends, and other information. Monitoring procedures are in place to ensure that follow up action is taken to recover overdue amounts. The Company reviews receivables on a regular basis to ensure that an adequate loss allowance is made. Provisions recorded by the Company are reviewed regularly to determine if any balances should be written off. The allowance for doubtful accounts could materially change as a result of fluctuations in the financial position of the Company's customers. The Company completes a detailed review of its historical credit losses as part of its impairment assessment.

20. Segmented Reporting

During the quarter ended September 30, 2021, the Company restructured its business after the sale of the midstream assets in May 2021. Going forward, the Company has consolidated its rental and energy services into two operating segments corresponding to the following geographical areas: Canada and the United States. Reporting by operating segment follows the same accounting policies as those used to prepare the consolidated financial statements. Inter-segment transfers are made at market prices. This new structure allows the company to streamline operations in Canada and the United States to better serve both conventional and renewable energy customers and infrastructure. In accordance with IFRS 8 – Operating Segments, the Company believes these new segments provide the most relevant information for users to evaluate the nature and financial effects of the business activities and the economic environment in which the Company operates. Under these new segments the Company tracks revenues, expenses, and profitability metrics for which the Company's chief operating decision reviews the operating results to assess financial performance and make resource allocation decisions. The midstream assets sold in May 2021 (see note 4) are included in the Canada segment for the 12 months ended March 31, 2022.
