The mother on behalf of Mrs. Grant Sr. has access to the telephone. She is shown as at this time. Further records may supplement this case/disposition that on behalf of Mrs. Grant I am not at the fact he had a direct interest of a financial interest in the approval process & under the previous system of the bidding process his participation in it had been denied to it with the next day if he were given the access to such records would be a denial of the confidence of confidentiality in the approval process.
